

Ages 4-10
School/Home

Recreate the beautiful Heart Mandalas and Heartling designs illustrated in this book using the game pieces. Each Heart Mandala comes straight to you from Planet Heart™, where “birds fly in heart choreography in the sky, and fish form beautiful heart patterns as they swim.” You may also color the designs, animate the game pieces, or create your own designs. The Heart Mandalas are geometrical in nature, so they allow children to experience the world in a mathematical context. The designs in this book are made of hearts that are in proportions of 1 : 1/2 : 1/4. Collect all the books in the series!
